

"No matter where you wander, everything's in place"

To some it's an organising system for busy parents. For me it's about liberation. When I'm organised, I'm happy.

These precious moments pass in the blink of an eye and we never get them back. Less time spent anxiously searching amongst mushy bananas and nappies looking for house keys instead of being with the one's we love means more to me than words can convey"

Jacqueline Waggett
mum of two and designer / owner of PacaPod

"We love our PacaPod, congratulations on creating such a brilliant product and have been using it constantly, we absolutely love it and have been using all elements - from the whole thing to taking out just individual pods. I must say I can't fault it - I love the little symbols on the different compartments and you've really thought of everything"
